

washer

item number: **NPPZ**

product description: This washer is used when installing the NMP assembly profile.

With a one-sided installation of the NMP assembly profile, when fixing the NKSJ bracket the washer is used below the nut together with an S 10X40 bolt.

With a double-sided installation of the NMP assembly profile, the washer is used as a spacer between the two assembly profiles. It is fixed in place using an S 10X70 bolt.

The washer may be supplied in polyester varnish (varnish layer 60, 100 μm).

configuration: F - Hot Dip Galvanized, zinc-layer 50 - 100 μm
EC - epoxy coating for indoor environment, - total paint, 60 μm
